

To ensure everybody's safety upon our return we have put in a lot of safe practises in place.

Firstly please come on time for your appointments, but not too early, as you may not be able to enter, if the salon has too many people inside. If you would like to wait in your car, we could ring/ text when we are ready for you. If you are being dropped off, please check we are ready, before they leave you.

We will check your temperature upon arrival with a non contact thermometer.

Try not to bring a coat with you, if you do that's fine, but we would ask you to hang it up yourself.

It's been recommended to have good ventilation throughout the salon, so doors and windows will be open, due to this and if you have wet hair it can be cold, so please bring a cardigan / wrap with you.

We are not allowed to provide magazines, or drinks at the moment, if you bring your own that's fine, but please could you take everything home with you when you leave.

I have put hand sanitiser up throughout the salon, please use it, as you enter.

We have measured out 2 meters

To ensure your safety we have purchased additional equipment so that we can sterilise everything after each customer.

All we ask is that you wear a mask.

If you are with us and can think of things we have missed or not thought of yet, please don't hesitate to tell us.
